Subject: Golden Gate Point Streetscape Project

Dear Property Owner:

As a property owner on Golden Gate Point, you are likely aware of street reconstruction and beautification project planned for your neighborhood. As part of the project, the entire street, all sidewalks, trees, and infrastructure in the public right-of-way will be renewed and replaced to meet the high standards set by your neighborhood.

Because we are dramatically altering the roadway and modifying the right-of-way, it will be impossible to accommodate all the construction within the public right-of-way. We will require a temporary easement to tie our new improvements into the surrounding properties.

We therefore are requesting a ten (10') **temporary construction easement** along the frontage of all properties on Golden Gate Point. This easement will only be for the time of actual construction, which is scheduled to last approximately **13-to-15 months** from the time construction starts. The area will be restored to as good, if not better condition, than before. It is vital for you to accept this request to accommodate the project, so we respectfully request you please sign in the space provided and return it to the GGP neighborhood representative at your earliest opportunity.

If you have any questions regarding this matter, or need further clarification, please feel free to contact our office. I can be reached at 941-954-4180.

Yours truly,

Alexandra DavisShaw, P.E., P.T.O.E.
City Engineer
