MY, HOW WE HAVE CHANGED!

Two aerial photos from GGP archives show the way our neighborhood has changed in the last 50 years. In the photo to the left, taken in 1940, only the Riviera, built by Ralph Twitchel and recently torn down, and the bridge to St. Armands leaving from area where Alta Mer is now located, can be identified. The photo on the right from the 1970's shows our neighborhood before the recent building boom.
